Volume 15, Issue XII - End of Year (EOY) Edition

Hello and welcome to this December 2015 [Server StorageIO update newsletter](#).

Seasons Greetings and Happy New Years.

Winter has arrived here in the northern hemisphere and it is also the last day of 2015 e.g. End Of Year or EOY). For some this means relaxing and having fun after a busy year, for others, its the last day of the most important quarter of the most important year ever, particular if you are involved in sales or spending.

This is also that time of year where predictions for 2016 will start streaming out as well as reflections [looking back at 2015](#) appear (more on these in January). Another EOY activity is planning for 2016 as well as getting items ready for roll-out or launch in the new year. Overall 2015 has been a very good year with many things in the works both public facing, as well as several behind the scenes some of which will start to appear throughout 2016.

Enjoy this abbreviated edition of the Server StorageIO update newsletter and watch for new tips, articles, predictions, [StorageIO lab report reviews](#), blog posts, videos and podcast's along with in the news commentary appearing soon.

Thank you for enabling a successful 2015 and wishing you all a prosperous new year in 2016.

Cheers GS
